Identifier/ISIN	XS2333382062
Distributor	Cirdan Capital Management (Cirdan)
PRIP manufacturer website	www.cirdancapital.com
Telephone	+44 (0)203 097 0280
The information in this Key Information Document is correct as of	15 April 2021

WHAT IS THIS PRODUCT?

TYPE: Senior, Unsecured, Bearer, Medium Term Certificates (English law governed).

OBJECTIVES: The product is designed to provide a return in the form of a cash payment on the **Maturity Date** that will depend upon the performance of the **Underlying**.

Terms in **bold** are described in more detail below.

An **Automatic Early Redemption Event** will occur, and the product will terminate early, if on any day on which the Certificate is trading, the (1) price of the Certificate divided by (2) the **Denomination** is equal to or less than the **Trigger Level**. If an Automatic Early Redemption Event occurs, you will receive a cash amount equal to the **Floor Percentage** multiplied by the **Denomination**. Note that payment amounts are calculated as a percentage of the Denomination, which may not be the same as the price at which you purchased the product. If the product does not terminate early, the Final Settlement Amount you will receive on the **Maturity Date** will be a cash amount equal to (1) the **Denomination**, multiplied by (2) the ratio of

the official closing level of the **Underlying** on the **Redemption Valuation Date** and the official closing level of the **Underlying** on the **Strike Date**, subject to a minimum amount equal to the **Floor Percentage** multiplied by the **Denomination**. Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to changes in law, the Underlying, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

Returns from an investment in the product may be achieved by means of the purchase and subsequent resale of the product.

INTEREST: There are no interest payments on this product.

Refer to the terms and conditions of the product for a full list of the corresponding information set out in the table above.

Intended Retail Investor: The product is intended to be offered to retail investors who fulfill all of the criteria below:

1. They have either some knowledge of the financial instruments in question or moderate experience of financial markets;
2. They are looking for an investment opportunity that reflects an expectation that the underlying will increase in value over time;
3. They are able to bear a total loss of the amount invested; and
4. They have a medium-term investment horizon.

03

WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN?

RISK & REWARD PROFILE

Lower risk				Higher risk		
01	02	03	04	05	06	07

The risk indicator assumes that you keep the product for the recommended holding period. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared

to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7 which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions are likely to impact our capacity to pay you. Any additional return depends on future market performance and is uncertain. If we are not able to pay you what is owed you could lose your entire investment.

PERFORMANCE SCENARIOS

Scenario		Year 1
Stressed Scenario	What you might get back after costs	EUR 2,981.65
	Average return each year %	-70.18%
Unfavourable Scenario	What you might get back after costs	EUR 7,671.54
	Average return each year %	-23.28%
Moderate Scenario	What you might get back after costs	EUR 10,058.06
	Average return each year %	0.58%
Favourable Scenario	What you might get back after costs	EUR 13,139.84
	Average return each year %	31.40%

This table shows the money you could get back over the next year, under different scenarios, assuming that you invest EUR 10,000.00. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not

take into account the situation where we are not able to pay you. This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

04

WHAT HAPPENS IF CIRDAN IS UNABLE TO PAY OUT?

You are exposed to the risk that Cirdan might be unable to fulfil its obligations in respect of the product e.g. in the event of insolvency or an administrative order. If Cirdan is unable to pay out, you may lose all of your investment. Your loss would not be covered by any investor compensation or guarantee scheme.

05

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off and ongoing costs.

The amounts shown here are the cumulative costs of the product itself, for one holding period. They include potential early exit penalties. The figures assume you invest EUR 10,000.00. The figures are estimates and may change in the future.

COSTS OVER TIME

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Total cost

EUR 100.00

Impact on return (RIY) per year

1.00%

COMPOSITION OF COSTS

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- The meaning of the different cost categories.

This table shows the impact on return per year.

One-off costs	ENTRY costs	0.00%	The impact of costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	EXIT costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.00%	The impact of the costs that we take each year for managing your investments.
Incidental Costs	Performance costs	0.00%	The impact of the costs that we take each year on the positive performance of the product. The performance is considered to be positive if the value of the product is higher than the previous high watermark.

06

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 1 Year(s)

If you wish to exit the product early, the price at which you are able to sell the product may be less than the amount you invested and you may make a loss. In addition, there may be no trading market for the product meaning you are unable to find a buyer. The price at which you are able to sell the product may be impacted by market factors including, but not limited to, movements in interest rates, interest rate volatility and the financial condition of Cirdan. If Cirdan purchases the product, Cirdan may deduct costs from the price it is willing to pay you (including, but not limited to costs relating to its hedging arrangements).

07

HOW CAN I COMPLAIN?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of Cirdan can be submitted to Cirdan under the following address: 27 Baker Street, Marylebone, London W1U 8EQ, United Kingdom or at www.cirdancapital.com or to complaints@cirdancapital.com
